

Overcoming Challenging Behavior and Picky Eating

A free workshop for parents of children with and without developmental disabilities

*Don't miss this exciting and comprehensive workshop
Presented by: Melissa Olive, PhD, BCBA-D*

Wednesday, March 31, 2010

Optional sessions: 9-10am, 12-1pm, 6-7pm

1890 Palmer Avenue, Suite 404
Larchmont, NY 10538

This FREE one hour workshop will provide effective strategies to overcome your child's challenging behavior and discuss the best approach for working with children who are picky or resistant eaters in order to increase the variety of foods they will eat.

The Center for Autism and Related Disorders, Inc. (CARD) is among the world's largest and most experienced organizations effectively treating children with autism and related developmental disorders. Since 1990, CARD implements comprehensive programs that follow the principles of Applied Behavior Analysis (ABA). While many individuals greatly benefit from our comprehensive program, some require short-term assistance in specific areas. For more information about CARD Specialized Outpatient Services, visit www.centerforautism.com/sos.
