CARD Researchers Named to the Board of Editors of the Journal of Applied Behavior Analysis

Tarzana, CA October 29, 2009 – The Center for Autism and Related Disorders, Inc. (CARD), Research and Development Director [Jonathan Tarbox PhD, BCBA-D](#) and Research and Development Manager [Adel C. Najdowski PhD, BCBA-D](#) have been invited to sit on the editorial board of the *Journal of Applied Behavior Analysis (JABA)*, a highly regarded, peer-reviewed, research about applications of the experimental analysis of behavior to problems of social importance.

“This is an exceptional honor as *JABA* is the premier scientific journal in the field of Applied Behavior Analysis (ABA), and we are really excited by the opportunity to serve the field by sitting on the board of editors,” says Dr. Tarbox.

Dr. Tarbox and Dr. Najdowski join Research and Development Manager’s [Dennis R. Dixon, PhD](#), who is now serving as a member of the Editorial Board for Research in Autism Spectrum Disorders and Research in Developmental Disabilities and [Melissa Olive PhD, BCBA-D](#) who sits on the Board of Editors for the *Journal of Early Intervention, Topics in Early Childhood Special Education, Exceptional Children, and Young Exceptional Children*.

About The Journal of Applied Behavior Analysis (JABA):

JABA was established in 1968 as a peer-reviewed, psychology journal, that publishes research about applications of the experimental analysis of behavior to problems of social importance. The journal is indexed in, among others, PubMed PsycINFO, and Web of Science. It is published quarterly by the Society for the Experimental Analysis of Behavior (SEAB). *JABA* is a delayed open access journal: all issues from 1968 onwards, except the most recent three, are available free from PubMed Central.

About the Center for Autism and Related Disorders, Inc. (CARD):

The Center for Autism and Related Disorders, Inc. (CARD) maintains a reputation as one of the world’s largest and most experienced organizations effectively treating children with autism, Asperger’s Syndrome, PDD-NOS, and related disorders. Following the principles of Applied Behavior Analysis (ABA), CARD develops individualized treatment plans for each child.

CARD provides both US regional and remote services around the globe through its 19 satellite sites in California (11 sites), New York (2 sites), Virginia, Illinois, Texas, Arizona, Australia, and New Zealand as well as its franchise clinics in the United Arab Emirates and South Africa. With a mission to increase access to the most effective treatments, CARD has developed strong working relationships with parent organizations, schools and government agencies all over the world, including the Middle East, Europe, and Hawaii. For more information about CARD, visit www.centerforautism.com.
